THROUGHOUT THE UK.

EVERY ASPECT OF YOUR
WASHROOM REFURBISHMENT COVERED,
FROM CONCEPT TO COMPLETION!

Washrooms

CAMPSITE & HOLIDAY PARKS

Happy campers return season after season, but their camping experience is only as good as your washrooms. We provide a clean and convenient space for campers to refresh and recharge during their outdoor adventures.

ENTERTAINMENT & TOURISM

We specialise in washroom facilities for tourist attractions, shopping centres, theme parks, cinemas, theatres, golf clubs and more... catering for the comfort of visitors, ensuring a pleasant and hygienic experience while exploring attractions and enjoying leisure activities.

SPORTS & LEISURE

Sporting Arenas, Gyms, Swimming Pools and Leisure Centres facilities need to be durable, moisture resistant & hygienic, we've got you covered. Offering clean and accessible facilities to enhance the overall experience of participants and spectators alike.

OFFICE, INDUSTRIAL & COMMERCIAL

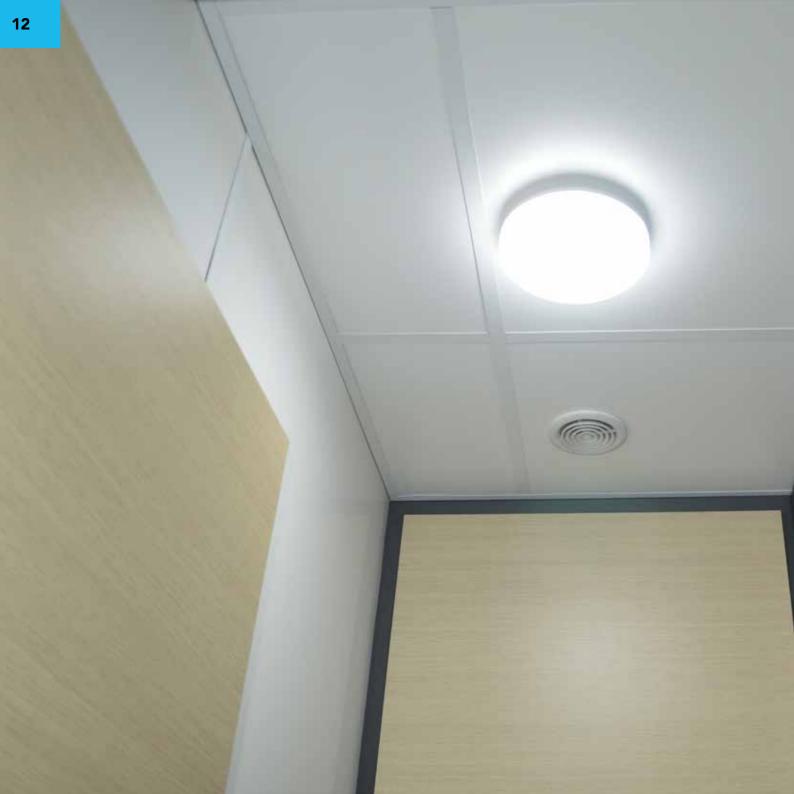

We provide attractive, clean and long lasting washrooms for high traffic environments. Prioritising functionality and cleanliness, providing employees and visitors with well-maintained facilities to meet hygiene standards in professional and business settings.

Tiled Walls

FLOORING

- For a cost effective, durable & low maintenance flooring, non-slip vinyl with welded seams & cap & cove upstands, is by far the best option. The cap & cove system means anything that splashes on the walls, can be washed down onto the floor, without getting into any cracks or corners.
- For a more premium feel, tiled floors are a durable solution, with a huge range of patterns
 & designs to set your washroom apart from the crowd.
- Seamless, waterproof & anti-fungal... resin flooring provides an incredibly durable, safe and lasting floor covering, ideal in Leisure Centres & other high traffic washrooms or changing spaces.

CUBICLES

- Solid Grade Laminate Standard Height Cubicles are a durable, robust and attractive cubicle option, used in all sectors. Impervious to water, SGL cubicles are made to endure, designed with hygiene in mind and look attractive in all settings.
- Our HighLine Solid Grade Laminate cubicle range is a minimal floor to ceiling system providing the user with maximum privacy and comfort.
- Individual washrooms with acoustic stud walls & solid timber doors, can make a toilet a tranquil, quiet space. Ideal in commercial settings, for providing your employees with comfort and privacy.

High Line Cubicles

Individual Cubicles

DUCT PANELS

Duct panelling comes in differing configurations and covers a multitude of functionalities.

- HighLine Solid Grade Laminate Duct Panels (IPS) are a must have if you want a low maintenance, hygienic washroom, with a long life-span. The lift-off access panels conceal all pipework & services, leaving a easy-clean impervious surface, that looks modern & attractive, and reduces risk or vandalism.
- Half-Height SGL Duct Panels (IPS) have similar benefits to HighLine, but are used where there are high level windows, limiting the height of the Duct Panel.
- For a low cost option, you can opt for standard close coupled toilets with exposed cistern and pipework, this system is suitable for low-usage washrooms with low risk of vandalism.

Close Coupled Toilet

VANITY UNITS

- Solid Surface Wash Troughs: For a stylish, timeless & and easy clean system, our Solid Surface Wash Troughs are minimal, modern & attractive. Made to measure and installed on top of Solid Grade Laminate vanity units, these wash troughs will make a design statement, whilst ensuring the longevity & hygiene of your washrooms.
- Fully Recessed Vanity units are a durable & attractive solution to conceal pipework & provide an easy clean surface.
- Counter Top Basins are a great way of making a design statement, with a wide range of shapes & finishes available. They are most popular for washrooms in offices & hospitality sector.

Counter Top Basin

VANITY UNITS

- Semi-Recessed Vanity units are a more modern alternative to the traditional fully recessed vanity units and are space efficient, easy to keep clean and aesthetically pleasing.
- For washrooms on a tight budget, wall hung or pedestal mounted basin are a cost effective & attractive option.
- Finally, if you really want a washroom with "WOW!" factor... We work with an extensive range of luxury materials such as Granite, Marble, Corian & Copper... Why not let CBS can create something really unique to make that stunning design statement you are seeking.

Pedestal Basin

WOW! Factor

SHOWERS

Showers in public washrooms need to be made to withstand high levels of traffic, and must be easy to keep clean. With a wide range of systems available, CBS will create shower facilities best suited to your requirements.

ACCESSIBLE WASHROOMS

In the UK, the Equality Act protects the rights of all disabled people, as individuals, which includes sanitary facilities that are provided. Facilities being offered must provide equal access to toilets for disabled customers/visitors and employees, to the same standard as non-disabled people. We are experienced in delivering facilities that exceed the requirements, rather than just comply, creating brilliant spaces, for ALL.

CHANGING FACILITIES

When planning changing rooms for your leisure centre or campsite, there are important aspects to consider, such as the layout, durability of all materials used and ease of maintenance to ensure a hygienic, attractive changing room welcomes your clients. We only work with the most durable products, such as Solid Grade Laminate cubicles & benching.

BABY CHANGING FACILITIES

Modern day toilets need baby changing facilities. This may be as simple as a fold down baby changer or a dedicated family room. The room can have a shower, toilet and basin as well as a worktop for laying babies down.

BENCHING

Leisure Centres & Campsites need durable, hygienic and low maintenance Changing Benches & Coat Hook solutions. We work with both Solid Grade Laminate & Solid Wood materials to create benching that looks great for years to come. The frames are available in a wide range of finishes & styles.

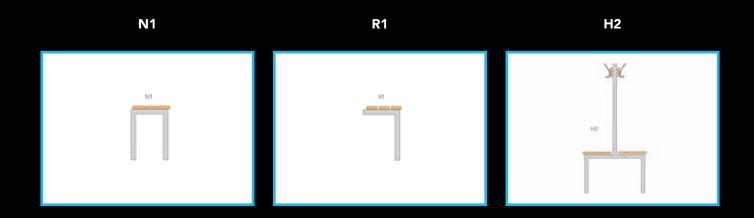

Standard Bench Options:

- Black Frame, Ash Slats
- Other timber finishes available on request.

Many configurations of frames and bespoke manufacturing are available to provide a solutions for every requirement.

- Heavy Duty Steel Frames
- Free standing or fixed to wall/floor
- Supplied assembled or fitted on site
- Optional shoe rack

- Optional bag rack
- Optional peg rail
- Unique fold down frame
- Heavy duty ash slats or solid grade laminate

LOCKERS

Designing your changing area facilities requires careful consideration. Lockers are available in a range of materials... and it is important to ensure you choose a material that will suit the application:

- Metal Lockers (cold rolled steel) are a cost effective, strong and secure solution but they
 are not suitable for humid, wet areas, as they may rust over time.
- Solid Grade Laminate Lockers are fabricated to endure the test of time and are available in a wide selection of attractive finishes.
- Plastic Lockers—HDPE (high-density polyethylene) is a solid plastic that's highly durable, scratch & impact resistant and the lowest maintenance option available. They are UV & moisture resistant, a good option for Swimming Pools & Leisure centres.
- CBS also offer a range of Smart access Lockers with Cards, Key fobs and even touchless technology.

OFFICE FIT-OUTS

As well as our extensive ranges of office furniture featured in our separate furniture catalogue, we can help you design and build or refurbish your office spaces. Our experienced designers use 2D and 3D CAD drawings to optimise your office space.

STAFFROOMS

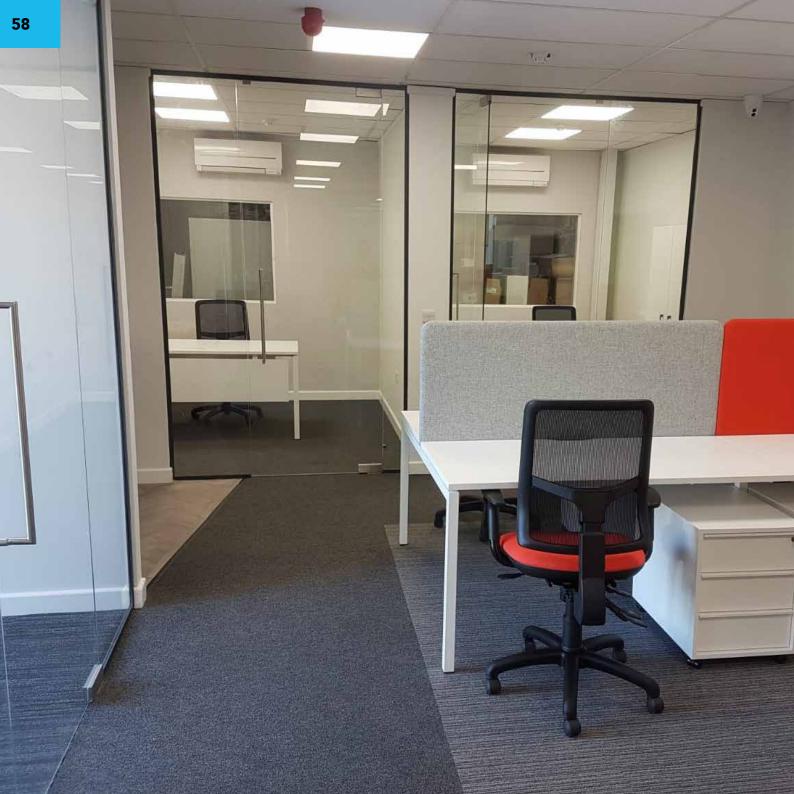

Every establishment needs a quiet space for its staff. Offering a wide range or materials and finishes, and backed up by our experience and expertise, we ascertain what you need - and build it for you.

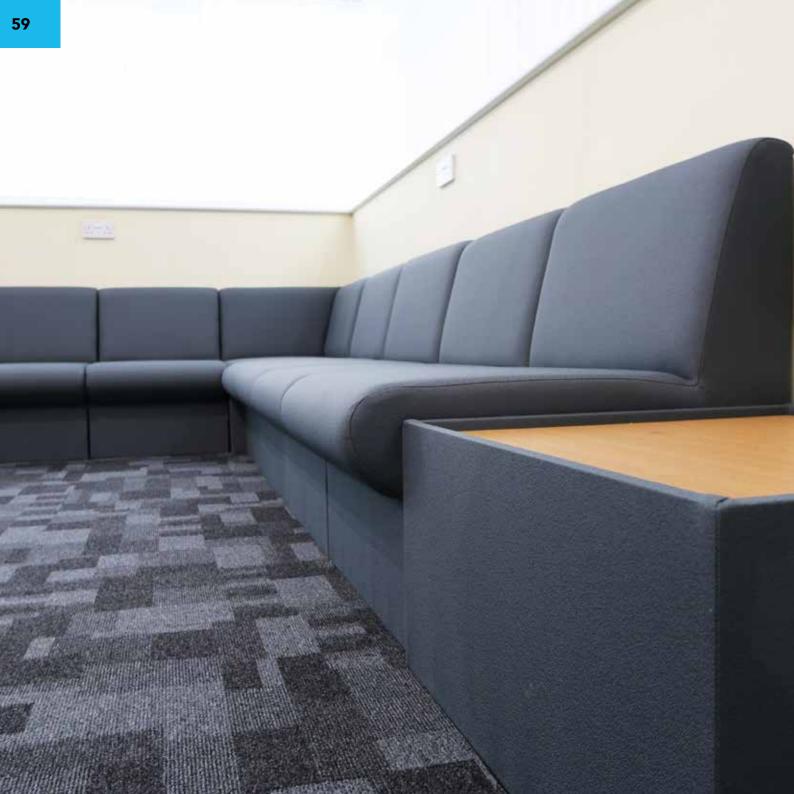

RECEPTIONS

With years of experience designing and fitting bespoke reception areas, we can offer advice on every aspect of the process. Even in the smallest and most awkward spaces we can deliver practical and attractive solutions to suit your needs!

MEETING ROOMS

Meeting rooms serve as collaborative spaces where ideas are exchanged and decisions are made, encouraging communication and teamwork in a professional setting. CBS specialises in creating trendy workspaces, seamlessly blending aesthetics with functionality to enhance the contemporary office environment.

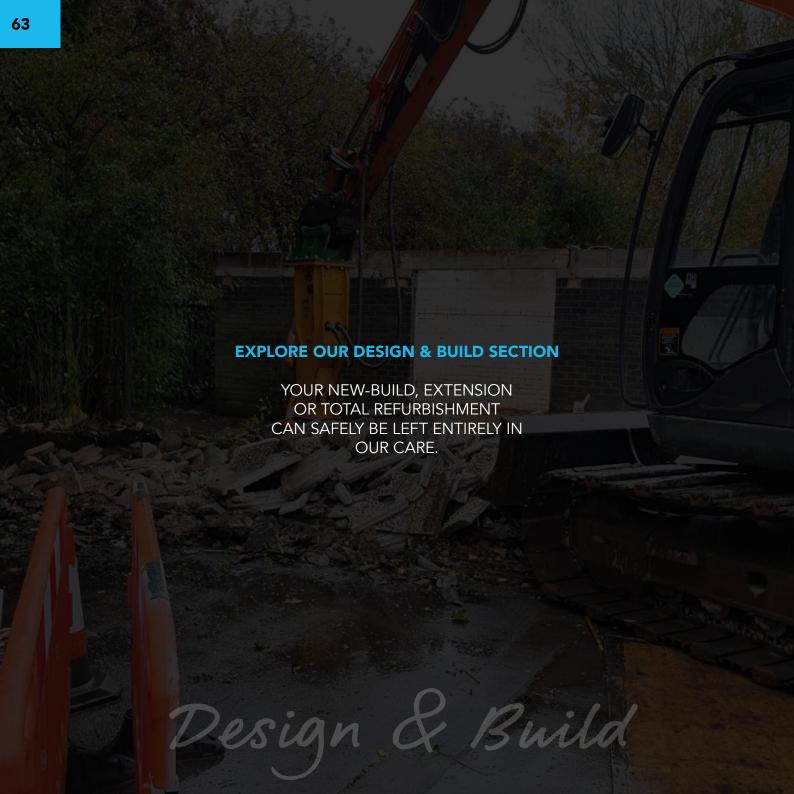

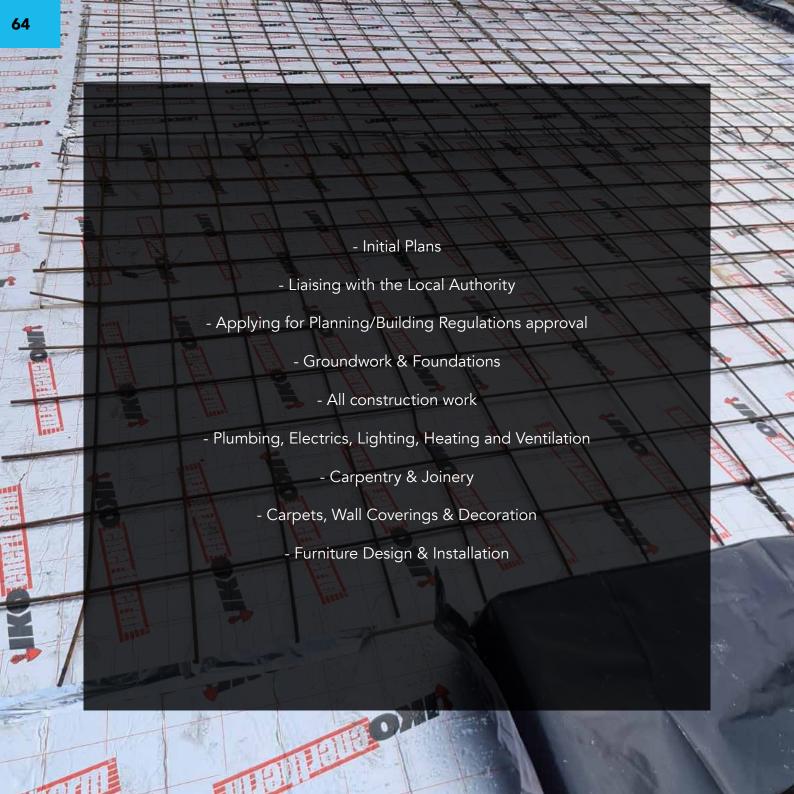

Design and Build, a construction approach where a single entity manages both the design and construction phases of a project, offers several key benefits:

Single-Point Responsibility: With Design and Build, a single entity is responsible for both the design and construction of a project. This consolidated responsibility streamlines decision-making, reduces conflicts, and simplifies project management.

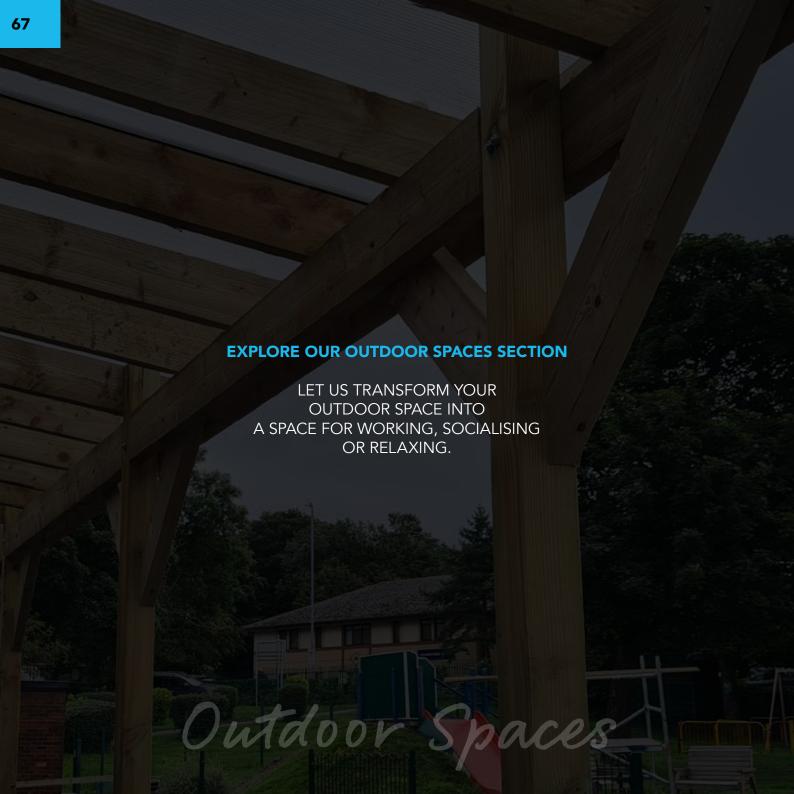

Faster Project Delivery: Design and Build allows for the overlapping of the design and construction phases. This concurrency can significantly expedite project completion, making it an attractive choice for time-sensitive projects.

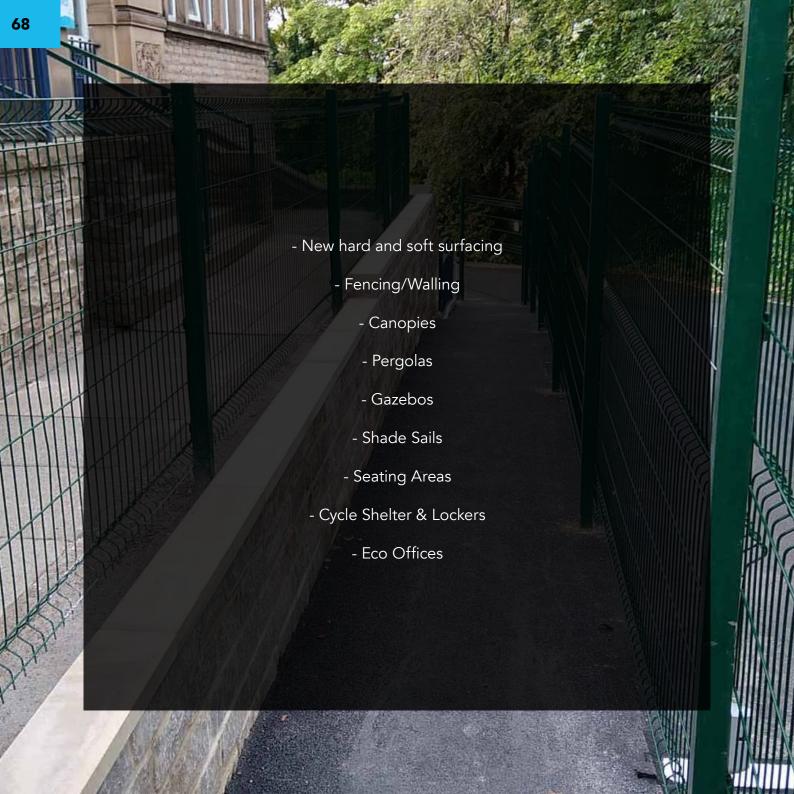

Cost Efficiency: Collaboration between the design and construction teams from the project's inception helps identify and resolve potential issues early on. This proactive approach minimizes costly change orders and can lead to cost savings.

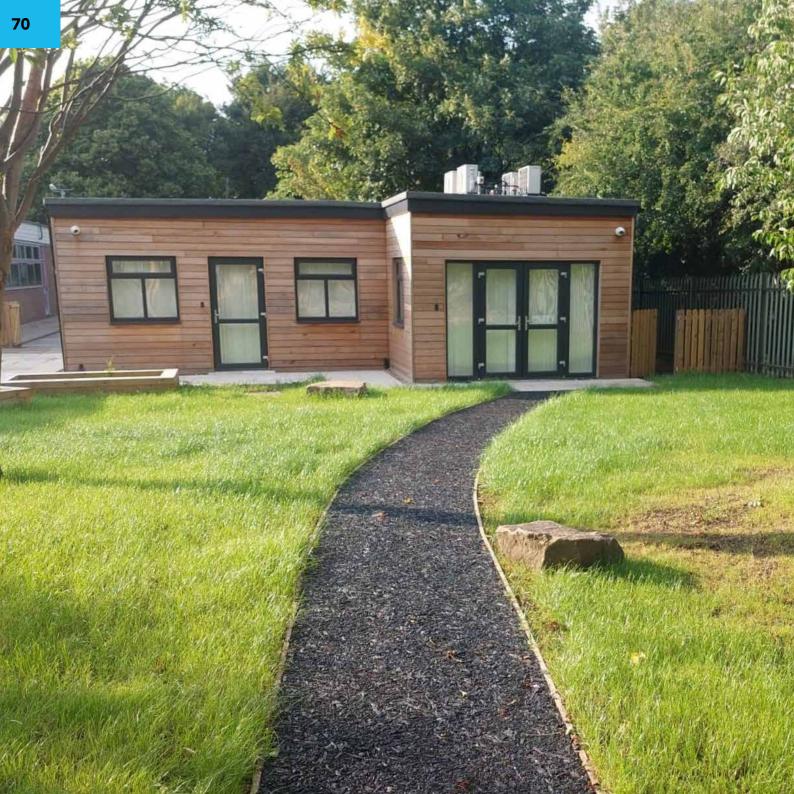

Quality Control: The integrated nature of Design and Build ensures that the construction aligns closely with the design intent. This results in better quality control, reducing the likelihood of errors and discrepancies.

Innovation and Problem-Solving: Design and Build encourages innovative solutions and problem-solving. Contractors, involved in the design phase, can offer insights and suggestions that can lead to more efficient construction methods and cost-effective design modifications.
